

# MAGNETIC FILTRATION SYSTEM

**Improve Product Quality, Reduce Oil Expenses**

- **No Filter Element**
- **No Replacement Cost**
- **Improved Product Finish**
- **Reduced Oil Consumption**
- **Extended Oil Change Period**
- **Reduced Machine downtime**
- **Reduced Storage & Disposal Cost of Waste Oil**
- **Reduced Pollution and Environmental Impact**

**Substantial Savings on Cost of filters, Tools / Dies & Oil Replacement  
Expenses Saved is profit earned.**

## **Applications :**

Grinding  
Honing  
Thread Rolling  
Super Finishing  
Neat Cutting Oil  
Coolant

Use Oil Maximum  
Save Environment

**Save by Extending Oil Life, Tool Life and Machine Life**

Magnetic Filtration System collects fine Particles from Oil with strong magnetic field created by powerful Rare earth magnets. There are no rotating parts, no consumables hence no recurring cost. Collected dirt can be easily cleaned and the unit put back to use again.

**One Time Installation, Lifelong Savings**
